FIRST RESPONSE

ANOTHER RESPONSE

“I want to grow cotton.
Which weather
environment is best?”

“I am <> speaking from <>.
What is the best seed for
summer *bajri*,
and where can I buy it? ”

“Congratulations to Avaaj Otalo. I will be forever in your debt for the knowledgeable response you gave to my question, and *Shankarbhai*, the service you are providing here I pray to God that you keep offering just like it is. Farmers learn so much if an ordinary person is able to ask a question and you remember it and send me a message sitting at my house. In the seven years I have been farming this is the first and only time that I have received satisfactory information. Big up to you, and... I want to sow something now, so if I've got a little extra water, what should I sow?”
